

Omega 90cm canopy rangehood with LED lighting and brushed stainless steel finish.

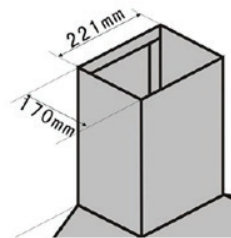

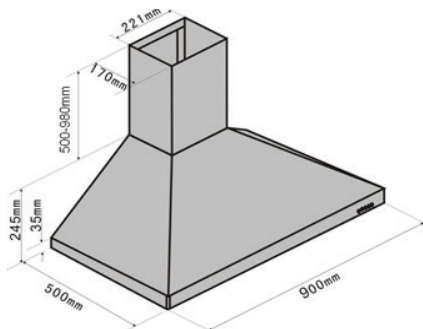

Technical details

Profile type: Canopy
 Size: 90cm
 Installation type: Wall mounted
 Airflow: 914m³/hr NET
 Number of motors: 1
 Watts of motor: 265W
 Speeds: 3
 Carbon filter: Included (ORCF152)
 Filtration: 3 aluminium, removable and washable filters
 Lighting: 7W LED strip
 Noise level (DB): 53-67dBA
 Air extraction: Ducted or recirculating
 Maximum current: 10amps 3 pin plug
 Connection: 220 - 240V, 50Hz
 Warranty: 24 months parts and labour

Aesthetics

Finish: Brushed stainless steel
 Chimney Extension: No
 Control type: Push buttons

Dimensions/weight

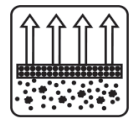

Overall dimensions (mm): 1225h x 900w x 500d
 Chimney height (mm): 500-980mm fully extended
 Flue diameter: 150mm
 Net weight: 14kg

LED LIGHT

HIGH AIR FLOW

CARBON FILTER

Key features	Benefits
LED lighting	LED lights only use a small amount of energy saving you money on your electricity bill. LED lights generate little heat and last a very long time.
Recirculation optional	A recirculating rangehood draws the air inside the appliance, cleans it and pushes it out through the chimney flue. Because there is no ducting required, these rangehoods are very easy to install.
High air flow	Omega high air extraction rangehoods typically draw more than 780m ³ of air per hour keeping your kitchen smoke free.

NB: Drawings are not to scale - they are to assist only. WARNING: technical specifications and product sizes can be varied by the manufacturer without notice. Cut-outs for appliances should only be by physical product measurements. The above information is indicative only.
