Key Features

Flame Failure

A safety device that ensures gas cannot flow from the cooktop if the flame is extinguished. No flame = no gas = safer home.

Cast Iron Trivets

Cast iron trivets are heavier and more durable than typical enamel coated trivets. This results in a more stable cooking surface and less chance of damage to the cooktop.

Lateral Wok Burner

Wok burners provide high heat that is needed for effective wok cooking. Not only is it suitable for Asian cuisines, it is also a powerful gas burner perfect for accelerating the cooking process.
